## How it Works:

**Private. No emails or phone numbers needed, with no account setup, and no ads!**

1.

We provide you with a username & password to login to our app and website to upload trip photos.

2.

Your group uploads photos with our app or website while and/or after you travel. Family at home can login and follow along.

3.

We create your video from the edited photos. Both can only be accessed with your group's username & password.

4.

We send users a notification to view the keepsake videos and all the photos that were shared by everyone to download to keep for a lifetime.

**Group leader receives everything on a USB Flash Drive**
